

1f. State Service Plan

As stated in the Serve America Act, each State Service Commission must prepare a national service plan for their state that covers a three-year period, developed through an open and public process that includes measurable goals and outcomes for the state's national service programs and is updated annually. It must also ensure outreach to diverse community-based agencies that serve underrepresented populations; provide for effective coordination of funding applications submitted by the state; ensure outreach to, and coordination with, municipalities and county governments; and contain information that the State Commission considers to be appropriate.

- [Nevada State Service Plan 2016-2019](#)

“National Service is an essential part of the solution to many of the challenges facing our state. These AmeriCorps members will meet pressing local needs and strengthen our communities as they develop civic and leadership skills to last a lifetime. I congratulate these outstanding organizations and thank all those who serve their communities through AmeriCorps.”

- Nevada Governor Brian Sandoval announcing AmeriCorps grants to Nevada organizations
