

2k. Disability Inclusion

Upon request, programs are required to provide reasonable accommodations for qualified candidates and members with disabilities (Terms and Conditions and 45 CFR 2522.100).

Qualified candidates and members may request an accommodation at any time during their consideration and/or term of service. Programs need to be proactive to ensure that everyone, including individuals with disabilities, have the opportunity to serve as an AmeriCorps Member. There is funding available through CNCS to support members with reasonable accommodations. For more information regarding requests for accommodations, please contact your Nevada Volunteers program contact. There are many resources available to help ensure that your program is inclusive:
