

4n. Member Supervision

Nevada Volunteers recommends having clear disciplinary policies for AmeriCorps members. Member concerns should be well documented in member files. Any serious member disciplinary actions should be discussed with your AmeriCorps program contact. Nevada Volunteers recommends having clear Corrective Action Plans for members who are not in compliance with their Member Service Agreement and addressing issues promptly. Many programs express frustration with member supervision during the middle and end of the program year. Clear policies that are consistently followed will help to prevent these issues.
