

### **3c. Program Evaluation**

The first time a program re-competes at the competitive or formula level, after its first three-year cycle, an evaluation plan must be submitted with the grant application. After a second three-year grant cycle, a program re-competing would need to submit a completed evaluation with the grant application (45 CFR 2522.500-540 and 45 CFR 2522.700-810). CNCS has prepared the following resources on the evaluation process:
