

Nevada Volunteers Unexpended Funds Projection Instructions and Report

To maximize funds available for next year's grants we need your estimate of unexpended funds that will be available at the end of program year 2016-17. Please complete the worksheet below to produce an estimate of unexpended funds. Complete Lines B through D as accurately as possible and follow the instructions for Line E to calculate the unexpended amount.

We will recapture the amount calculated as "Estimated Unexpended Funds" (Line E) to add to our Formula-based funding pool for 2017-2018. Be as accurate as possible because Nevada Volunteers will not be able to restore the funds if you underestimate your needs through the end of the program year.

Nevada Volunteers must receive the completed worksheet by April 15.

The information required to submit unexpended funds projections are below. Please email the completed worksheet to your AmeriCorps Team Lead no later than April 15.
