Requirements for Financial and Programmatic Reporting

Financial Reporting

Cost Reimbursement Grant Financial Reporting Requirements

1. **Periodic Expense Report (PER):** This form must be submitted monthly (unless permission is granted from Nevada Volunteers for quarterly submission) showing expenses to date. This form is completed in OnCorps and will be used as your request for reimbursement.
2. **Upload/Download Files:** In addition to the PER, for us to process a request for reimbursement general ledger showing expenses, including match, must be uploaded into OnCorps using the "upload/download files" option within the Financials menu. High risk or new grantees may be required to submit additional information.

Fixed-Price Grant Financial Reporting Requirements

1. **Fixed Amount Grant Invoice:** This feature will be used to request reimbursement for fixed amount grants and is based on the approved member hours in OnCorps. In addition, fixed-price grantees must upload the Fixed-Price Grant Reimbursement Request Certification and journal showing payroll and health insurance payments for members using the upload/download feature.

Additional Financial Reporting (all programs)

1. **Aggregate Financial Report (AFR):** This form must be submitted twice a year with the mid-year and final GPR. This form is submitted through the financial reporting section of the OnCorps system. A tutorial on how to submit AFRs can be found in OnCorps under the help menu.
2. **Program Income Report:** In addition to the AFR, all programs must submit a Program Income Report in OnCorps. Please add all sources of income used as match for the reporting period. In the comments section, note the CFDA numbers for all federal funding sources as well as the amount of any unspent program income generated as a result of the grant.

Programmatic Reporting

2021-2022 Grant Progress Report Instructions

The following items must be completed in OnCorps as part of the Grant Progress Report (GPR). These items have not been finalized by AmeriCorps and changes to requirements may occur prior to your initial reporting deadline.

Tab 1- General Information:

Enter AmeriCorps Program name, grant number, Program year (2021), and reporting period dates. If you have a grant amendment, also include this information.

Tab 2- Demographics:

The following demographics fields are required:

- Number of individuals who applied to be AmeriCorps members
- Number of volunteers recruited or managed
Number of volunteers recruited, trained, managed, or coordinated by your AmeriCorps program during the grant period. Each individual volunteer should be counted only once even if they participated in more than one volunteer opportunity.
- Dollar amount of resources leveraged by the program
Dollar amount of cash and in-kind resources leveraged by your program to support activities under this specific program during the reporting period. The reported value should NOT include resources reported as formal match or cost share (if applicable) and should also not include resources provided by AmeriCorps as federal grant share or member benefits. Rather, the reported value should reflect any

actual expenditures beyond the formal budget (similar to the “Other Revenue” funds projected in the AmeriCorps State and National grant application). The reported amount should be backed up by your own accounting records but does not need to follow the documentation requirements for formal match or cost share. Resources raised by the national service participant (if applicable) should not be included in the reported value; this value should be reported in a separate Performance Data Element.

The remaining demographics fields are required for all grantees for whom the indicator is relevant to their program model (“relevant” refers to something that is a significant part of a grantee’s program design and Theory of Change).

Tab 3 – MSY:

This tab is not required. Please check the “I have no MSY data to report this period” box at the top.

Tab 4 – Performance Indicators:

On this tab in the top box explain any instances where your program is not fully enrolled or if your retention rate is under 85%. In the bottom box explain if exits were not completed within 30 days. Explanations should include the following:

- Why your numbers are below the targets (100% enrollment, 85% retention, 30 day exit)
- What corrective actions are being planned to improve enrollment and/or retention rates, including any adjustments to your recruitment and/or retention practices

Tab 5 - Performance Measures:

This feature is used to report on your progress towards meeting the approved performance measures. Responses should include any performance measure data pertaining to the reporting period. An explanation is required for any output or outcome measure for which one or more of the following is true:

Situation	Required Explanation
Actual is lower than the target value	Reason(s) why the target was not met.
Actual greatly exceeds the target value by 400% or more	Reason(s) why the value is significantly higher than originally projected. Clarify that no data was double counted, and all data are directly attributable to the program activities.
Program activities and/or data collection are still ongoing, even if targets have already been met	State that activities are still ongoing and explain when program activities will be completed, and a full set of data will be available.

Tab 6 – Narratives:

Answer these questions based on the guidance given by AmeriCorps (linked at top of form in OnCorps). This is the final tab in the OnCorps GPR report.

Proof of Data Quality:

This portion of the reporting should be submitted by email to your program contact as part of your GPR. Please submit back-up documents of aggregate data used for your Performance Measure reporting. This does not mean every piece of data used, but rather a document (Excel, Word, etc) where your data was compiled to report. If you have questions about this process, please reach out to Hawley to determine what documents will fulfill this requirement.
