Requirements for Financial and Programmatic Reporting

Financial Reporting

Cost Reimbursement Grant Financial Reporting Requirements

1. **Periodic Expense Report (PER):** This form must be submitted monthly (unless permission is granted from Nevada Volunteers for quarterly submission) showing expenses to date. This form is completed in OnCorps and will be used as your request for reimbursement.
2. **Upload/Download Files:** In addition to the PER, for us to process a request for reimbursement, a general ledger showing expenses, including match, must be uploaded into OnCorps. High risk or new grantees may be required to submit additional backup documentation.
3. **Aggregate Financial Report (AFR):** This form must be submitted twice a year with the mid-year and final GPR. This form is submitted through the financial reporting section of the OnCorps system. A tutorial on how to submit AFRs can be found in OnCorps under the help menu.
4. **Program Income Report:** In addition to the AFR, all programs must submit a Program Income Report in OnCorps. Please add all sources of income used as match for the reporting period. In the comments section, note the CFDA numbers for all federal funding sources as well as the amount of any unspent program income generated as a result of the grant.
5. **Unexpended Funds Worksheet:** All programs must submit an [unexpended funds report](#) to Nevada Volunteers with mid-year reporting. The unexpended funds worksheet will outline any grant funds a subgrantee anticipates will be unexpended by the end of the grant period. Any unexpended funds reported will be deobligated from your grant award.

** Nevada Volunteers monitors sub-grantee expenditures to ensure full expenditure by the grant year-end. If a sub-grantee is not on track to fully expend their funds, we may transfer funds to another sub-grantee. Nevada Volunteers will work with sub-grantees to help them fully utilize their funds on allowable, allocable, and reasonable costs.*

Fixed-Price Grant Financial Reporting Requirements

1. **Fixed Amount Grant Invoice:** This feature will be used to request reimbursement for fixed amount grants and is based on the approved member hours in OnCorps. In addition, fixed-price grantees must upload the Fixed-Price Grant Reimbursement Request Certification and backup documentation showing payroll and health insurance payments for members using the OnCorps upload/download feature.

Programmatic Reporting

2025-2026 Grant Progress Report Instructions

The following items must be completed in OnCorps as part of the Grant Progress Report (GPR). These items have not been finalized by AmeriCorps and changes to requirements may occur prior to your initial reporting deadline.

Tab 1- General Information:

Enter AmeriCorps Program name, grant number, Program year (2025), and reporting period dates. If you have a grant amendment, also include this information.

Tab 2- Demographics:

The following demographics fields are required:

- Number of individuals who applied to be AmeriCorps members
- Number of volunteers recruited or managed
Number of volunteers recruited, trained, managed, or coordinated by your AmeriCorps program during the grant period. Each individual volunteer should be counted only once even if they participated in more than one volunteer opportunity.
- Dollar amount of resources leveraged by the program
Dollar amount of cash and in-kind resources leveraged by your program to support activities under this specific program during the reporting period. The reported value should NOT include resources reported as formal match or cost share (if applicable) and should also not include resources provided by AmeriCorps as federal grant share or member benefits. Rather, the reported value should reflect any actual expenditures beyond the formal budget (similar to the "Other Revenue" funds projected in the AmeriCorps State and National grant application). The reported amount should be backed up by your own accounting records but does not need to follow the documentation requirements for formal match or cost share. Resources raised by the national service participant (if applicable) should not be included in the reported value; this value should be reported in a separate Performance Data Element.

The remaining demographics fields are required for all grantees for whom the indicator is relevant to their program model ("relevant" refers to something that is a significant part of a grantee's program design and Theory of Change).

Tab 3 – Performance Indicators:

On this tab in the top box explain any instances where your program is not fully enrolled or if your retention rate is under 85%. In the bottom box explain if exits were not completed within 30 days. Explanations should include the following:

- Why your numbers are below the targets (100% enrollment, 85% retention, 30 day exit)
- What corrective actions are being planned to improve enrollment and/or retention rates, including any adjustments to your recruitment and/or retention practices

Tab 4 - Performance Measures:

This feature is used to report on your progress towards meeting the approved performance measures.

Responses should include any performance measure data pertaining to the reporting period.

An explanation is required for any output or outcome measure for which one or more of the following is true:

| Situation | Required Explanation |
|--|---|
| Actual is lower than the target value | Reason(s) why the target was not met. |
| Actual greatly exceeds the target value by 400% or more | Reason(s) why the value is significantly higher than originally projected. Clarify that no data was double counted, and all data are directly attributable to the program activities. |
| Program activities and/or data collection are still ongoing, even if targets have already been met | State that activities are still ongoing and explain when program activities will be completed, and a full set of data will be available. |

Tab 5 – Narratives:

The Narratives tab asks grantees to reflect on activities and accomplishments during the program year. Each section has a 1,500 word limit.

Analysis of Impact (Required):

- Describe how AmeriCorps member service is making an impact in the community that would not have been possible through existing staff and/or volunteers.
- If applicable, describe how AmeriCorps has enabled the program to leverage new public-private partnerships, funding and other resources.
- Describe any factors or trends that positively or negatively affected your program's performance.

Impact Snapshots (Optional):

- Provide one or more examples of a change in beneficiary knowledge attitude, behavior or condition that your program has been able to measure. Include the following:
 - Geographic location
 - 2-3 sentences describing the problem, intervention and quantifiable change in beneficiaries.

Member Experience (Required):

- Describe any activities and accomplishments relative to member experience that were not captured in national performance measures. How has your organization ensured that members consistently find satisfaction, meaning and opportunity?

Other (Required):

- Describe the training and technical assistance you have provided to sites during the reporting period.
- Explain how you have implemented your monitoring plan. Discuss any significant issues or trends you have identified through programmatic and fiscal monitoring and how you are responding to them.

Proof of Data Quality:

This portion of the reporting should be submitted by email to your program contact as part of your GPR. Please submit back-up documents of aggregate data used for your Performance Measure reporting. This does not mean every piece of data used, but rather a document (Excel, Word, etc.) where your data was compiled to report. If you have questions about this process, please reach out to your Nevada Volunteers contact to determine what documents will fulfill this requirement.
